

# WEDGE-TAILED EAGLE FACT SHEET

Wedge-tail shape

- The wedge-tailed eagle is the largest bird of prey in Australia and one of the largest in the world.
- The wedge-tailed eagle gets its name from the diamond-shaped tail.
- They sometimes hunt cooperatively, and are able to take prey several times their own weight.
- The wedge-tailed eagle builds a massive stick nest that can be over 6 feet across and up to 12 feet deep.
